

HOW TO PAIR WINE

Poached fish with butter, nuts

BY MICHAEL AUSTIN
Tribune Newspapers

Poaching is the perfect method for cooking tender fish fillets. Here the liquid is stocked with vermouth, for a delicate flavor. Butter, toasted nuts and lemon finish the dish, all accents to look for in a wine pairing, such as the three suggestions here.

THE FOOD

Vermouth-poached fish fillets:

Heat a large, dry skillet over medium heat; add 1/2 cup sliced almonds. Toast, stirring, until golden brown, about 2 minutes. Transfer almonds to a bowl. Heat 1 cup water, 1 cup dry white vermouth and 2 teaspoons salt in the skillet to a simmer. Add 2 boneless whitefish fillets; simmer until fish just turns opaque and flakes easily, about 5 minutes. Remove fillets; season with salt and pepper. Top with 2 tablespoons melted butter, the almonds and 1/4 cup finely chopped parsley. Serve with lemon wedges on the side for squeezing. **Makes:** 2 servings

THE WINES *Pairings by sommelier Belinda Chang, as told to Michael Austin:*

2014 Vietti Roero Arneis, Piedmont, Italy: Butter, almonds and lemon, the components of the sauce in this dish, are also some of the notes you'll find in a top-flight Roero arneis. Though best known for world-class reds, Piedmont is also planted with arneis, a white grape that produces lovely, plush, full-bodied wines. This arneis is redolent of roasted nuts and citrus. I

2013 Palmira Dolcetto, Santa Barbara County, California: A fish dish can be challenging to pair with a red, but this dolcetto delivers. Meaning "little sweet one" in Italian, dolcetto is a super utility player. It is medium-bodied, juicy and peppery. It will marry nicely with the toasted almond and butter in the dish.

Szizgeti Sekt, Burgenland, Austria: The brightness of a chilled, well-balanced bubbly like this sparkling rosé will echo the zip of the lemon in the dish. A blend, this bottling includes the lesser-known zweigelt grape, which is pinot noir-esque. Also, the wine's nuttiness, achieved by aging it on the lees (the spent yeast cells that give a traditional-method wine its typical brioche and roasted nut character), will vibe well with the almonds.
